Gavenraj Sodhi, Business Layers  
Hal Lockhart, Entegriy Solutions  
Cliff Schmidt, Microsoft  
Jeff Bohren, OpenNetwork Technologies  
Darran Rolls, Waveset

Minutes

---

Order and role-call

---

Vote to accept minutes of committee meeting 05/29/2002  
-----

Minutes published [1].

- Approved

Update on business white paper  
-----

Action: Gavenraj.

- 1<sup>st</sup> draft will be sent out for review by the group.

- Discussion about federated identity.

Use Cases  
-----

No comments posted from the last editorial revision of the SMPL use cases document. Can we therefore consider the document accurate and complete (at least for now)?

- Tony: Create ID with no prior knowledge of PSU. Single action to the PSP...  
**Additional use case will be developed by Darran.**

In Tim Moses comments [2] he suggested using XACML filtering for use case 20. Discuss.

## Competitive Submissions

-----

It was suggested during the working group call 5/29 that we adopt a competitive submission system in an effort to try and move quickly towards a 01 specification. I'd like to construct a formal statement to this effect. Consider the following straw-man to start the discussion:

- Suggestion from Darran: Outline for protocol and structure and submit it to the group
- Possibly a ten (10) week period

## Vote on perusing SMPL interop for Catalyst next year

-----

I propose running an email vote for PSTC perusing an SPML interop at next years Burton Groups Catalyst conference (details of the SAML interop this year [3]). Any issues?

- Positive Response
  - Discussion to be held within the mailing list.

## Suggestions for the next F2F

-----

We had originally estimated an F2F3 for June. In light of the discussion during agenda item 5, do we want to consider setting a revised date?

Action: Gavenraj to send mail to list about

## Motion to Adjourn

---

Adjourned

- Seconded.
