Ballot Information

Ballot reference OASIS - ISO TC 37 liaison

Ballot type CIB

Ballot title The establishment of OASIS - ISO TC 37 liaison

Opening date 2010-11-24

Closing date 2010-12-14

Note

Greetings. Our OASIS XLIFF Technical Committee has asked that we confirm their request to appoint a liaison from that committee and OASIS to ISO TC 37; and OASIS is happy to do so. Our TC liaisons are appointed pursuant to our rules

(http://www.oasis-open.org/committees/liaison_policy.php#liaisons),

which define what representatives from specific committees may do, and are consistent with ISO policies.

The same policy also discusses the rules for contributions and submissions of OASIS Standards to ISO panels, as we have in the past, and we understand also is a possible future opportunity in this case.

Would you please be so kind as to add:

1. Mr. Peter Reynolds of PSBT: "Peter Reynolds"
2. Mr. James Bryce Clark of OASIS: "James Bryce Clark"

as OASIS liaisons to TC 37 and L-member subscribers to the TC37 roster.

We look forward to further collaboration with you.

Kind regards

JBC ~ James Bryce Clark

General Counsel, OASIS

I find this liason a good idea.		
Italy (UNI)	<i>Comment</i>	2010-11-29 14:37:43
Italy is in favour of the establishment of OASIS-ISO TC 37 liaison.
