Test Matrix [1]

No line by line review but it was noted that Forrest has submitted all of his tests.

Don, Stuart and Ulrich need to get their tests submitted.

Discussions in the List:

getObjectExtent test becomes two: getObjectExtent and getObjectExtentTransformed
Forrest will make a png of what the transformed image looks like

alphaEscape

This is actually common to all the static tests. Forrest and Stuart will write an html harness to display the png and cgm.

Incorrect WebCGM 2.0 Test
Stuart agrees with Benoit

The scale, rotate and translate tests have been reviewed.
We need to resolve these issues on the list.

Face to Face meeting (news from the WG)

Thierry will not be available for a meeting during April. So the meeting will need be either in late March or early May. Would having the meeting in March stimulate enough progress to be able to make the meeting productive?

Next telecon or work session

Next call January 21?
