

OASIS ebXML Registry TC Meeting Minutes, June 8, 2006

Attendees:

Kathryn Breininger	The Boeing Company
Ted Haas	GS1 US
Carl Mattocks	MetLife
Farrukh Najmi	Sun Microsystems
Nikola Stojanovic	GS1 US
Goran Zugic	Semantion

1. Approval of previous meeting minutes for April 27th:

Approved

2. Minute taker

Nikola

3. OASIS Symposium overview

Carl summarized the symposium. One common theme was that there need to be more alignments between TCs and what they produce. Kathryn mentioned the interview related to ebXML (where is it now and how is it evolving). She also mentioned that the TC Lightning Rounds session was very attractive.

4. ebXML Registry Profile for Web Ontology review

Kathryn said that deadline for comments is approaching fast. Carl went over Use Cases that OWL Profile addresses and the structure of the Profile. Farrukh has already sent comments and briefly explained what he addressed. Kathryn mentioned that Ivan is working on comments. Carl and Farrukh encouraged the whole team to review the document.

ACTION ITEM - All TC members to try to review the profile prior to the deadline - June 15th.

5. Continue work on review and editing of Profile Template document:

There were two options -> either to work on comments during the call or establish a subteam to proceed with the review off-line. Group decided to take the second option.

ACTION ITEM - TC members who would like to be part of the review subteam should contact Kathryn.

6. Other issues, items

Goran said that he will continue to work on Type Extensibility in the second part of July.

Farrukh mentioned that the freebXML Registry community has been raising some spec related issues so he suggested that we start thinking about timeline for the errata / next revision of the spec. He'll send a web link to the compiled list of issues.

ACTION ITEM - Farrukh to provide the link and TC members to review the list of items prior to the June 22 meeting

7. Next meeting

June 22, 2006
