1. A motion to allow audio recording of the meeting was passed by acclimation.

2. The time of the next meeting was discussed.

3. A motion to hold meetings on the second Wednesday of the month at 11:00 Eastern Time through the rest of 2006 was passed by acclimation.

4. Minutes for the previous meeting were approved by acclimation. These minutes should be moved from the "Draft" folder to the "Minutes" folder on the OASIS web site.

5. There was discussion of the due date for deliverables. It was concluded that deliverables for this TC would be due July 12, 2007; one year after the formation of the TC.

6. There was a discussion of the current (draft) FAQ for the TC. The TC should be aware of work for ISO 31 / STEP, MatML, and AnIML. It was noted that the MatML project would be interested in guidelines for using UnitsML.

7. There was discussion of the current issues in the schema developed by NIST.

8. Representation for the TC at the upcoming OASIS meeting was discussed. The meeting will be November 27-28 in London. It may be possible to have some face-to-face meetings among committee members at that time.
