WebCGM TC Telecon – 20061129

Attendees
Dave Cruikshank
Andrew Moorhouse
Don Larson
Forrest Carpenter
Lofton Henderson
Ulrich Laesche
Franck Duluc

Regrets
Dieter Weidenbruck

Agenda

Status of WebCGM 2.0
WebCGM 2.0 should exit PR status at the end of the day Nov 30. Initial announcement of WebCGM 2.0 in OASIS should occur on Dec 1. We will need to lobby OASIS organizational voting members to remind them to vote, particularly with the ballot period the last two weeks of December.

Future of WebCGM

Technical Plan - Forrest
Forrest is committed to another activity through the end of the year, but will be available to pursue this early next year. To prepare for that Dave will assign action items to build use cases for new functionality. Dave will also issue a call for any addition functional requirements. Lofton will assist Forrest in building a requirements document for any further editions of WebCGM.

Marketing plan - Don
Don will contact Carol Geyer to see if we can provide some words to the W3C/OASIS announcement of WebCGM 2.0. Other topics to consider are the 20 year anniversary of CGM, adoption of WebCGM 2.0 by ASD S1000D and ATA iSpec 2200.

Future of W3C WG
The W3C WG charter expires May 31. Work until that time might include any errata development that may come up in WebCGM 2.0 and some errata for WebCGM 1.0 that was identified during the WG efforts.

Future f2f
If there is progress made in our business plans for the future of WebCGM, we might consider a f2f meeting in March or April. Andrew offered to host it in Glasgow.
