

**DRAFT**

**SCA-JEE Subcommittee Teleconference**

**24 October 2008**

**Chair**

Plamen Pavlov

**Scribe**

Mike Edwards

**Attendees**

<b>Name</b>	<b>Company</b>	<b>Status</b>
Mike Edwards	IBM	Group Member
Dave Booz	IBM	Group Member
Plamen Pavlov	SAP AG*	Group Member
Anish Karmarkar	Oracle Inc	Group Member
Raghav Srinivasan	Oracle Inc	Guest

**Contents**

Resolutions.....	1
Actions.....	2
Agenda.....	2
(Item 3) Agenda Bashing.....	2
(Item 4) Approval of Minutes from Previous Call.....	3
(Item 5) Timeslot for phone call of 31st October.....	3
(Item 6) Phone call on November 14th.....	3
(Item 7) Discussion of SCA Java EE specification draft.....	3

**Resolutions**

**Resolution: Minutes of 17<sup>th</sup> October approved without objections**

- Resolution:** Call of 31<sup>st</sup> October will be at the regular US time.
- Resolution:** Call of 14<sup>th</sup> November is cancelled

### ***Actions***

**Action: Whole document: make "Web module" the way in which this is spelled everywhere in the document**

**Action: Section 7.2, line 1022: Investigate the use of implementation.xxx for ejb modules.**

**Action: Section 7.2, line 1057 & 1059 -replace [some name] with an actual name for all occurrences**

**Action: Section 7.2 - Revisit the example in section 7.2 - in particular the final version of the composite file**

**Action: Appendix A.1, line 1159 -remove the version="2.0" attribute from line 1159 (composite file example)**

**Action: Appendix A.2, line 1249 -Change the implementation type in the example composite to one of the concrete types (line 1249)**

**Action: Whole document: Use capital letters for "EJB" throughout the document.**

**Action: Appendix A.2 - Mention in the text that the binding for the reference from ACMEBean would have to satisfy the "EJB" intent**

**Action: Appendix A - Mark appendix A as not normative at the top**

### ***Agenda***

1. Roll Call
2. Appointment of scribe
3. Agenda bashing
4. Approval of minutes from previous meeting(s)  
<http://www.oasis-open.org/apps/org/workgroup/sca-j-je/download.php/29770/SCA%20JEE%20minutes%202008-10-17.pdf>
5. Discussion for the time slot for the next phone call - 31st October
6. Discussion for phone call on 14th October
7. Discussion of SCA Java EE specification draft - continue from section 7.2  
<http://www.oasis-open.org/apps/org/workgroup/sca-j/download.php/29127/sca-jee-1%5B1%5D.1-spec-wd03.doc>
8. Discussion of Next Steps Workplan
9. Adjourn

### ***(Item 3) Agenda Bashing***

No changes

#### ***(Item 4) Approval of Minutes from Previous Call***

17th October minutes

**Resolution: Minutes of 17<sup>th</sup> October approved without objections**

#### ***(Item 5) Timeslot for phone call of 31st October***

Proposal is for the call to be at the same time in the USA and so 1 hour earlier in Europe  
Agreed.

**Resolution: Call of 31<sup>st</sup> October will be at the regular US time.**

#### ***(Item 6) Phone call on November 14th***

This is the day after the Java TC F2F in Cardiff - so people will be travelling  
Proposal is to cancel the call  
Agreed - call is cancelled.

**Resolution: Call of 14<sup>th</sup> November is cancelled**

#### ***(Item 7) Discussion of SCA Java EE specification draft***

<http://www.oasis-open.org/apps/org/workgroup/sca-j/download.php/29127/sca-jee-1%5B1%5D.1-spec-wd03.doc>

Starting at Section 7.2

Section 7.2 (line 1021) - "web module" has lower case, where generally it is spelled "Web module" with upper case.

**Action: Whole document: make "Web module" the way in which this is spelled everywhere in the document**

Anish: minor editorial: s/sample.org/example.org/

Dave: Is "implementation.ejb" on line 1022 (bullet 1) correct? Should be implementation.jee, pointing at the ejb-jar

**Action: Section 7.2, line 1022: Investigate the use of implementation.xxx for ejb modules.**

Mike E: Needs to be an actual name for [some name] in lines 1059 & 1057

**Action: Section 7.2, line 1057 & 1059 -replace [some name] with an actual name for all occurrences**

Anish: this is interesting: the CT depends on the composite/component configuration. this is a deviation from the rest of the sca specs where we have intended to have one CT per implementation, at least per MikeR

**Action: Section 7.2 - Revisit the example in section 7.2 - in particular the final version of the composite file**

Section - Appendix A (Usecases)

Anish: we should mark the section as follows:

Anish: A. Use cases (non-normative)

Section A.1

**Action: Appendix A.1, line 1159 -remove the version="2.0" attribute from line 1159 (composite file example)**

Section A.2

**Action: Appendix A.2, line 1249 -Change the implementation type in the example composite to one of the concrete types (line 1249)**

**Action: Whole document: Use capital letters for "EJB" throughout the document.**

Anish: In this example, there would be an "EJB" intent on the reference in the component type?

Dave: In the component type of the ACMEBean?

Dave: Yes

Anish - worth mentioning here that any wires here must satisfy that intent

**Action: Appendix A.2 - Mention in the text that the binding for the reference from ACMEBean would have to satisfy the "EJB" intent**

Dave Booz Anish, dont we have the same issue with the first use case in this section?

Anish dave, i suppose we do

Anish in that case, it would be on the service rather than a reference

**Action: Appendix A - Mark appendix A as not normative at the top**

Completed Appendix A

Start next time at Appendix B (only that is left to do)

Plamen will build a list of all actions

**AOB**

None.

Next meeting 31st Oct  
Close of Business
