Email from Eric Wells, commented by Mike Edwards:

(Item 3) Agenda Bashing
No changes

(Item 4) Minutes from Previous Meeting
Minutes for previous meeting have been lost by Mike Edwards - apologies.

(Item 5) Action Items
None.

(Item 6) Consideration of proposal for Update of Test Suite Artifacts

Eric - notes that the Test Suite matches the Public Review version of the Assembly spec
Eric - multiple issues have been resolved and there are 2 Revs of the spec
- makes it harder to compare the test suite and the spec
Mike - some concern in case we are forced to change any of the test artifacts before they are published for Public Review
Eric - we could work on the TestAssertions document separately, however, since it is just a document
Ashok - Will the test suite materials point to a specific version of the Assembly spec?
Mike - I would expect so. Test Suite materials currently point at the PR version of the spec
**Action 20090708-01: Raise an issue to bring the Test Assertions document up to the Rev2 level of the assembly spec - Eric.**
