Notes:

1. Welcome and call to order

Meeting opened at 10:01am EST.

2. Roll Call

As noted above and updated on the roster. Meeting is quorate.

3. Approve agenda

There were no objections to the published agenda.

4. Approve minutes from January 29, 2013 meeting

Approved with a noted correction to the URL for the JMS Mapping wiki page.

5. Progress on Websockets (David Ingham)

David is planning a Websockets call and has asked for interested members to notify him.

6. Progress on SCTP (Matthew Arrott)

Randall Stewart deferred his SCTP presentation to the workgroup until Feb 26. Matthew will organize the discussion topics and submitted requirements/use-cases as input to Face-to-Face meeting next week.

7. Progress on SOAP (John O'Hara)

John O'Hara was not in attendance.

8. Progress on JMS (Rob Godfrey)

Rob has no update on JPMorgan legal department - waiting for their response to Laurie Bryson's request for guidance on next steps to contribute JPMorgan's previous JMS-related work to OASIS.

Rob Godfrey held a workstream call to discuss scope of the JMS effort and begin to clarify some details of the mapping. The results are recorded at

<https://wiki.oasis-open.org/amqp-bindmap/JMSMapping>

Rob will begin to get the document generation system set up in Subversion.

Plan is to begin writing documents in form generally required by OASIS but to keep the work at a workstream, work-in-progress level until it is much closer to final form.

9. OpenMAMA/AMQP (William Henry)

William noted that Red Hat will be putting more effort into OpenMAMA, specifically concerning threading issues and ability to use multiple transports in a process. William believes that NYX (Glenn Clements) will be joining OASIS; he will follow up with them concerning membership.

10. Any other business

None.

Meeting was closed at 10:28am EST.

Next meeting will be Tuesday the 26th of February, 2013.
