Notes:

1. Welcome and call to order

Meeting opened at 10:04am EDT.

2. Roll Call

As noted above and updated on the roster. Meeting is quorate.

3. Approve agenda

There were no objections to the published agenda.

4. Approve minutes from June 4, 2013 meeting

Approved.

5. Progress on Websockets (Rob Dolin)

There is another draft of the Websockets binding document coming soon.

6. Progress on SCTP (Matthew Arrott)

Paul Knight was on the call and will be assisting to get the first working draft for the SCTP binding once the AMQP Member Section approves funding. Paul recommends that we go ahead and get document templates from OASIS for both SCTP and SOAP. Need a proposed title, abstract, and a "short name" in order to request the doc template from OASIS. Matthew will collect these items for SCTP and circulate them on the TC mailing list for feedback.

7. Progress on SOAP (John O'Hara)

Effort waiting for technical writing assistance.

Steve will get the doc template information and circulate on the TC mailing list for feedback.

8. Progress on JMS (Rob Godfrey)

Rob Godfrey reported that some JMS information was sent to JPMorgan legal; Rob/Laurie Bryson are waiting for their opinion. On the implementation, Robbie Gemmell and Rob will get a call arranged as soon as they progress further and have questions/issues to discuss.

9. OpenMAMA/AMQP (William Henry)

William not present, but Steve contacted him via email. The NYX team is handling the remaining AMQP mapping tasks.

10. Discuss removing OpenMAMA from TC discussions

As NYX is primarily responsible for OpenMAMA/AMQP and they have not joined OASIS, this TC will drop OpenMAMA at this time.

11. Any other business

None.

Meeting was closed at 10:18am EDT.

Next meeting will be Tuesday the 2nd of July, 2013.
