OASIS MQTT Security Technical Sub-Committee
Minutes of for the meeting of Tuesday, 5th November 2013
Teleconference

Convener
Louis-P. Lamoureux in lieu of Geoff Brown

Roll Call
People on the call:
- Louis-P. Lamoureux (M2Mi)
- Allan Stockdill-Mander (IBM)
- Manu Namboodiri (M2Mi)
- Ken Borgendale (IBM)

Supplemental document content
Louis-P. Lamoureux
- NIST published a new version of the framework. It contains new information that was not present in September’s version. The draft is updated to reflect those changes.
- Allan Stockdill-Mander read the draft and believes it is on the right track.
- References still need to be reviewed and make sure the list is complete.
- Geoff Brown is still working on providing information for the use case (Duke Energy).

Actions
- Geoff Brown will get the information off Duke Energy for the use case.
- Louis Lamoureux will add a use case around Duke Energy using the Framework Implementation Tiers approach. He will also go through the references.
- Objective is to finalize the draft for the next SC call

Confirm date & time of next meeting
- Next call scheduled for Tuesday November 19th 11AM (EDT)
