Voting Rights Update

Following the 23rd September:
- Greg Jones has gained voting rights.

Getting the Membership Ballot over the line

Raph Cohn:
- We are up 40 votes. We need 45 more yes votes to pass.
- I am sure everyone on the TC knows someone who hasn’t voted. Please reach out and urge them to vote.
- There is NIST Primary representative called Mary Brady. Maybe Geoff Brown could reach out to her.
- Proposes to email primary and secondary representatives on the ballot list.

Richard Coppen:
- Chet asked not to circulate them in the mailing list but was happy to share them privately within the TC.
- Chet will send a reminder email before the end of the voting period.

AOB
- Alex Kritikos asking the TC if anyone has the latest and greatest version of 3.1.1 conformance test suite. He had sent an email without any response.
- Richard Coppen reminds us that Ian Skerrett at Paho is developing python test suites and welcomes anyone who wants to help out. Would it be useful to get Ian on a call to discuss the matter? TC agrees. Richard will set something up.

Date and time of next TC / Security SC call.
- TC will be held on November 6th.

Call for late joiners

No late joiners.
