General Statement

P6R Inc. has implemented three profiles [1] of the OASIS PKCS#11 Cryptographic Token Interface Base Specification [2], [3], [4] in accordance with the conformance clauses specified therein and OASIS policy. As of this writing, the implementation has not been used in interoperation with other vendor's implementations.

Detailed Statement

P6R Inc. has used or implemented the core set of data types, objects, and functions defined in the OASIS PKCS#11 Cryptographic Token Interface Base Specification [2], in accordance with the conformance clauses specified therein.

P6R Inc. has implemented support for the following profiles [1] in accordance with the conformance clauses specified therein.

- PKCS11 Baseline Consumer Profile
- PKCS11 Baseline Provider Profile
- PKCS11 Extended Provider Profile

P6R PKCS11 consumer implementation has been used in interoperation with P6R PKCS11 provider implementations.
