PKCS #11 v3.0 Statement of Use

General Statement

Utimaco has successfully implemented selected mechanisms of the OASIS PKCS #11 Cryptographic Token Interface Base Specification [2], [3], [4] in accordance with the OASIS policy. The implementation has successfully been used in interoperation with other implementations.

Detailed Statement

PKCS #11 consumer implementations by Cryptsoft and Primekey have successfully been used in interoperation with Utimaco’s SecurityServer PKCS #11 provider implementation.
