The PPT is included in the group documents folder.
Abbie asked a question about the session ID / uuid used.

Bojan raised the issue of QR authentication as primary authentication: is there an assumption that there must be a smartphone and it must have an internet connection?

Ori suggested signing the session ID or encrypting it.

Abbie said that would be fine and you just keep it high level in the TC.

Abbie said that the work is continuing and the proper documentation takes many iterations and time.
