Agenda:

- Action on Outstanding Motions
- Introductions
- Updates on Spec revisions
- Adjourn

Meeting Notes:

Vasileios Mavroeidis

Need to pass two Motions to create a new OASIS Open Repository in Github for the TAC TC Ontology Currently located in the Github Repositories for TC work (https://github.com/oasis-tcs)

- Made a Motion to Move ‘Vulnerability’ to OASIS Open Repository - Ryan Seconded
  
  **Unanimous (7) In Favor of**

  Sample PoC Repository demonstrating the project: https://github.com/Vasileios-Mavroeidis/semantic-stix-vulnerability

- Made a Motion to Create a new ‘Common Semantic Facts’ Open Repository - Jane Seconded
  
  **Unanimous (7) in Favor of**

  Objective: To create a new OASIS Open Repository in GitHub (https://github.com/oasis-open) for the Common Semantic Facts project that we demonstrated and discussed in the previous calls

- Discussion of the status of ‘Industry Sector’ - Do we need more granularity?
Discussion on whether or not to approve a committee note draft –
The Industry Sector Taxonomy.

What’s next for the "Industry Sectors Taxonomy" - Needs feedback from the community

Francesco Schifilliti

Introduction - Reason for joining TAC TC

Tim Casey
Background on development of TAL and supplemental documents

Patrick Maroney
Gave input on other ontologies and background

Ryan Hohimer
Update on revising Ontology

Need to further discuss status of “Threat Scenario”

Noted he would have more time to devote to TAC TC in the future

Vasileios Mavroeidis

Suggested developing an Attack Ontology Committee Note

Ryan Hohimer
Let’s put this on the agenda for the August Monthly Meeting
