

Release 6.2 Net Change Document

As of November 22, 1999

General Changes to OAGIS

Section One Chapter Two was revised and combined with the XML Architecture document previously named Appendix I.

Section Two was restructured into a single word document to not require PowerPoint to view the OAGIS specification.

Several of the Appendices were combined with other sections or eliminated based on feedback from the users of the specification.

Chapter Changes - Section One

Section	Chapter	Notes
1	Cover	Changed copyright to 1999 - 2000. Changed header to Release 6.2. Changed Document number to 991105. Added new chapters to Table of Contents. Updated the Scenarios Table of Contents. Updated the Preface.
1	001	Changed header to Release 6.2. Deleted this introductory chapter and changed the chapter to include an updated version of the original Chapter Two to reflect the current architecture of the BOD message.
1	002	Changed the chapter entirely to contain the original Appendix I, XML Architecture.

Chapter Changes - Section Two
