

How to Join a Committee

If you are a member of OASIS and already have a user account in the OASIS member database:

1. Go to [All Groups](#) [1] (your OASIS username and password are required) and choose a Committee from the Available Groups list.
2. Select the "Join Group" link.
3. You will have the option to join as a [Member or Observer](#) [2].
4. If you choose to join as a Committee Member, your employer's Primary Contact will be asked to approve your request; once approved, you'll be notified via email and automatically subscribed to the Committee's mailing list.

If you are employed by an OASIS member organization, but do not have a user account:

1. Register for an account in the [OASIS member database](#) [3].
2. Request to join a Committee by following the instructions above.

Note: There is no additional cost for you to participate under your employer's organizational membership.

If you are not a member of OASIS yet:

1. Sign up for [OASIS membership](#) [4].
2. Create a user account in the [OASIS member database](#) [3].
3. Request to join a Committee by following the instructions above.

Contact [OASIS staff](#) [5] for assistance with any step of this process.
