Member Sections

**Emergency Interoperability** [2] accelerates the development, adoption, application, and implementation of emergency interoperability and communications standards and related work.

**IDtrust** [3] promotes greater understanding and adoption of standards-based identity and trusted infrastructure technologies, policies, and practices.

**LegalXML** [4] unites legal and technical experts in a common forum to create standards for the electronic exchange of legal data.

**Open CSA** [5] advances open standards that simplify SOA application development via the Service Component Architecture (SCA) and Service Data Objects (SDO) families of specifications.

**OSLC** [6] develops standards that make it easy and practical for software lifecycle tools to share data with one another.

**WS-I** [7] advances Best Practices for selected groups of Web services standards, across platforms, operating systems, and programming languages.

**Completed Member Sections:**

- Blue [8]
- CGM Open [9]
- COSL [10]
- Data Center Markup Language (DCML) [11]
- eGov [12]
- Public Key Infrastructure (PKI) [13]
- Telecom [14]
- Universal Description, Discovery, and Integration (UDDI) [15]
