# 15 day public review for #TOSCA Simple Profile in #YAML Version 1.1 - ends March 2nd

Submitted by censign on Wed, 2017-02-15 16:17

**Type:**

Public Review

The OASIS Topology and Orchestration Specification for Cloud Applications (TOSCA) TC members [1] have produced an updated Committee Specification Draft (CSD) and submitted this specification for 15-day public review:

TOSCA Simple Profile in YAML Version 1.1  
Committee Specification Draft 02 / Public Review Draft 02  
12 January 2017

What is the TOSCA Simple Profile in YAML and why is it important?

TOSCA Simple Profile in YAML defines a simplified profile of the TOSCA Version 1.0 specification in a YAML rendering which is intended to simplify the authoring of TOSCA service templates. This profile defines a less verbose and more human-readable YAML rendering, reduced level of indirection between different modeling artifacts as well as the assumption of a base type system.

Public Review Period:

The public review starts 16 February 2017 at 00:00 UTC and ends 02 March 2017 at 11:59 UTC. The specification was previously submitted for public review [2]. This 15-day review is limited in scope to changes made from the previous review. Changes are highlighted in <http://docs.oasis-open.org/tosca/TOSCA-Simple-Profile-YAML/v1.1/csprd02/...> [1]

This is an open invitation to comment. OASIS solicits feedback from potential users, developers and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.
