Type:

Public Review

The OASIS eXtensible Access Control Markup Language (XACML) TC members [1] have produced an updated Committee Specification Draft (CSD) and submitted this specification for 15-day public review:

XACML 3.0 Export Compliance US (EC-US) Profile Version 1.0
Committee Specification Draft 04 / Public Review Draft 02
28 June 2012

Specification Overview:

This specification defines a profile for the use of XACML in expressing policies for complying with USA government regulations for export compliance (EC). It defines standard attribute identifiers useful in such policies, and recommends attribute value ranges for certain attributes.

TC Description:

The XACML Technical Committee defines a core XML schema for representing authorization and entitlement policies.

Public Review Period:

The public review starts 6 September 2012 and ends 21 September 2012. The specification was previously submitted for public review [2]. This 15-day review is limited in scope to changes made from the previous review. Changes are highlighted in the diff-marked PDF file included in the release package.

This is an open invitation to comment. OASIS solicits feedback from potential users, developers and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.
