
30-day Public Review for #AMQP WebSocket Binding 1.0 ends July 19th

Submitted by cgeyer on Fri, 2014-06-20 13:22

Type:

Public Review

The OASIS Advanced Message Queuing Protocol (AMQP) Bindings and Mappings (AMQP-BINDMAP) TC [1] members have recently approved a Committee Specification Draft (CSD) and submitted it for 30-day public review:

Advanced Message Queuing Protocol (AMQP) WebSocket Binding (WSB) Version 1.0
Committee Specification Draft 01 / Public Review Draft 01
10 June 2014

Overview:

The AMQP WebSocket Binding specification defines a mechanism for tunneling an AMQP connection over a WebSocket transport. It is applicable as an approach for general firewall tunneling and for Web browser messaging scenarios.

TC Description:

The purpose of the AMQP Bindings and Mappings (AMQP-BINDMAP) TC is to define bindings of AMQP 1.0 core protocol to underlying transports other than TCP, to define mappings of the AMQP 1.0 core protocol to existing well-known programming APIs, and to define representations of the AMQP 1.0 message format in existing well-known languages.

For more information, see the TC Charter and FAQ.

Public Review Period:

The public review starts 20 June 2014 at 00:00 GMT and ends 19 July 2014 at 23:59 GMT.

This is an open invitation to comment. OASIS solicits feedback from potential users, developers and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.

Comments may be submitted to the TC by any person through the use of the OASIS TC Comment Facility which can be used by following the instructions on the TC's "Send A Comment" page, or directly at:

https://www.oasis-open.org/committees/comments/index.php?wg_abbrev=amqp-... [6]

Comments submitted by TC non-members for this work and for other work of this TC are publicly archived and can be viewed at:

<https://lists.oasis-open.org/archives/amqp-bindmap-comment/> [7]

All comments submitted to OASIS are subject to the OASIS Feedback License, which ensures that the feedback you provide carries the same obligations at least as the obligations of the TC members. In connection with this public review of "Advanced Message Queuing Protocol (AMQP) WebSocket Binding (WSB) Version 1.0", we call your attention to the OASIS IPR Policy [2] applicable especially [3] to the work of this Technical Committee. All members of the TC should be familiar with this document, which may create obligations regarding the disclosure and availability of a member's patent, copyright, trademark and license rights that read on an approved OASIS specification.

OASIS invites any persons who know of any such claims to disclose these if they may be essential to the implementation of the above specification, so that notice of them may be posted to the notice page for this TC's work.
