# 30-day Public Review for Cloud Application Management for Platforms (#CAMP) V1.1

Submitted by cesign on Mon, 2013-08-19 18:29

**Type:**

Public Review

The OASIS Cloud Application Management for Platforms (CAMP) TC [1] members have recently approved a Committee Specification Draft (CSD) and submitted this specification for 30-day public review:

Cloud Application Management for Platforms Version 1.1  
Committee Specification Draft 03 / Public Review Draft 01  
31 July 2013

Specification Overview:

This document defines the artifacts and APIs that need to be offered by a Platform as a Service (PaaS) cloud to manage the building, running, administration, monitoring and patching of applications in the cloud. Its purpose is to enable interoperability among self-service interfaces to PaaS clouds by defining artifacts and formats that can be used with any conforming cloud and enable independent vendors to create tools and services that interact with any conforming cloud using the defined interfaces. Cloud vendors can use these interfaces to develop new PaaS offerings that will interact with independently developed tools and components.

TC Description:

The OASIS CAMP TC advances an interoperable protocol that cloud implementers can use to package and deploy their applications. CAMP defines interfaces for self-service provisioning, monitoring, and control. Based on REST, CAMP is expected to foster an ecosystem of common tools, plugins, libraries and frameworks, which will allow vendors to offer greater value-add.

Common CAMP use cases include:

- moving on-premise applications to the cloud (private or public)
- redeploying applications across cloud platforms from multiple vendors

Public Review Period:

The public review starts 20 August 2013 at 00:00 GMT and ends 19 September 2013 at 23:59 GMT.

This is an open invitation to comment. OASIS solicits feedback from potential users, developers and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.

Comments may be submitted to the TC by any person through the use of the OASIS TC Comment Facility which can be used by following the instructions on the TC's "Send A Comment" page, or directly at:

[https://www.oasis-open.org/committees/comments/index.php?wg\\_abbrev=camp](https://www.oasis-open.org/committees/comments/index.php?wg_abbrev=camp) [6]

Comments submitted by TC non-members for this work and for other work of this TC are publicly archived and can be viewed at:

<https://lists.oasis-open.org/archives/camp-comment/> [7]

All comments submitted to OASIS are subject to the OASIS Feedback License, which ensures that the feedback you provide carries the same obligations at least as the obligations of the TC members. In connection with this public review of "Cloud Application Management for Platforms Version 1.1", we call your attention to the OASIS IPR Policy [2] applicable especially [3] to the work of this technical committee. All members of the TC should be familiar with this document, which may create obligations regarding the disclosure and availability of a member's patent, copyright, trademark and license rights that read on an approved OASIS specification.

OASIS invites any persons who know of any such claims to disclose these if they may be essential to the implementation of the above specification, so that notice of them may be posted to the notice page for this TC's work.
