30-day Public Review for #EDXL Tracking of Emergency Clients (TEC) Client Registry Exchange Version 1.0 - ends August 13th

Submitted by censign on Tue, 2014-07-15 13:41

Type:

Public Review

The OASIS Emergency Management TC [1] members have recently approved a Committee Specification Draft (CSD) and submitted it for 30-day public review:

Emergency Data Exchange Language (EDXL) Tracking of Emergency Clients (TEC) Client Registry Exchange Version 1.0

Committee Specification Draft 01 / Public Review Draft 01

13 June 2014

With the release we are testing a convenience option for submitting comments to the Technical Committee. Please see the details under ?Public Review Period? below.

Overview:

This document describes a message standard for the EDXL Tracking of Emergency Clients (EDXL-TEC) Client Registry Exchange. The purpose of the standard is to provide a standard messaging format for the creation and exchange of client records in and among publicly-accessible registries to assist in tracking and repatriation of displaced individuals during emergencies, disasters, and routine day-to-day incidents.

This specification is intended as a companion to an EDXL-TEC Client Tracking Exchange messaging standard, whose eventual development is anticipated.

TC Description:

The Emergency Management TC creates vendor-neutral and platform agnostic standards for organizations and agencies to more easily exchange emergency information.

The Emergency Data Exchange Language (EDXL) is a broad initiative to create an integrated framework for a wide range of emergency data exchange standards to support operations, logistics, planning and finance.

This draft specification joins the other EM-TC standard efforts including:

EDXL Common Alerting Protocol (EDXL-CAP)

EDXL Distribution Element (EDXL-DE)
EDXL Hospital AVailability Exchange (EDXL-HAVE)
EDXL Resource Messaging (EDXL-RM)
EDXL Reference Information Model (EDXL-RIM)
EDXL Situation Reporting (EDXL-SitRep)
EDXL Tracking Emergency Patients (EDXL-TEP)

Public Review Period:

The public review starts 16 July 2014 at 00:00 GMT and ends 13 August 2014 at 23:59 GMT.

This is an open invitation to comment. OASIS solicits feedback from potential users, developers and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.

With this public review, we are testing a new convenience feature for sending comments to the Technical Committee. The file

<http://docs.oasis-open.org/emergency/edxl-tec-registry/v1.0/csprd01/edxl...> [1]

contains the HTML version of the draft with a [?\[comment?\]?](#) link next to each section heading. Clicking on this link will launch your email application and begin a message to emergency-comment@lists.oasis-open.org [2] with the specific section number and title in the subject line. (For example, [?Public review comment for edxl-tec-registry-v1.0-csprd01: 1.1 References?](#)) Simply enter your comment and click send.

You must be subscribed to the emergency-comment@lists.oasis-open.org [2] mailing list in order to send your comments. Instructions on how to subscribe can be found at https://www.oasis-open.org/committees/comments/index.php?wg_abbrev=emerg... [3].

Note that the Table of Contents and other links may not work in this version. Go to the main HTML file for the complete functioning document.
