## 30-day Public Review for OSLC Core Version 3.0 - ends Sept. 28th

Submitted by censign on Fri, 2016-08-26 21:08

**Type:**

Public Review

The OASIS OSLC Lifecycle Integration Core (OSLC Core) TC [1] members have recently approved a Committee Specification Draft (CSD) and submitted it for 30-day public review:

OSLC Core Version 3.0

Committee Specification Draft 01 / Public Review Draft 01

07 June 2016

**Overview:**

OSLC is motivated by domain-driven scenarios that inspire standardization of common capabilities across disciplines such as change management, requirements management, and quality management, as well as by cross-domain scenarios such as Application Lifecycle Management (ALM) & DevOps, Product Lifecycle Management (PLM), and Integrated Service Management (ISM). The OSLC approach focuses on software lifecycle management to ensure it meets a core set of scenarios and requirements. Nonetheless, it can be used by tools belonging to any other domains and cross-domain scenarios such as Internet of Things, back office application integration, and customer relationship management.

**Public Review Period:**

The public review starts 29 August 2016 at 00:00 UTC and ends 28 September 2016 at 23:59 UTC.

This is an open invitation to comment. OASIS solicits feedback from potential users, developers and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.
