

# 30-day Public Review for SAML V2.0 Channel Binding Extensions V1.0

Submitted by cesign on Thu, 2013-05-23 14:54

**Type:**

Public Review

The OASIS Security Services (SAML) TC [1] members have recently approved a Committee Specification Draft (CSD) and submitted this specification for 30-day public review:

SAML V2.0 Channel Binding Extensions Version 1.0  
Committee Specification Draft 01 / Public Review Draft 01  
14 May 2013

**Specification Overview:**

This specification defines an extension to the SAML V2.0 protocol specification that supports the use of channel bindings in conjunction with SAML profiles. It also includes a new SAML profile that applies the extension to a set of profiles that fit a particular communication pattern.

**Public Review Period:**

The public review starts 24 May 2013 at 00:00 GMT and ends 23 June 2013 at 23:59 GMT.

This is an open invitation to comment. OASIS solicits feedback from potential users, developers and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.

**URIs:**

The prose specification document and related files are available here:

Comments may be submitted to the TC by any person through the use of the OASIS TC Comment Facility which can be used by following the instructions on the TC's "Send A Comment" page, or directly at:

[https://www.oasis-open.org/committees/comments/index.php?wg\\_abbrev=security](https://www.oasis-open.org/committees/comments/index.php?wg_abbrev=security) [7]

Comments submitted by TC non-members for this work and for other work of this TC are publicly archived and can be viewed at:

<https://lists.oasis-open.org/archives/security-services-comment/> [8]

All comments submitted to OASIS are subject to the OASIS Feedback License, which ensures that the feedback you provide carries the same obligations at least as the obligations of the TC members. In connection with this public review of "SAML V2.0 Channel Binding Extensions Version 1.0", we call your attention to the OASIS IPR Policy [2] applicable especially [3] to the work of this technical committee. All members of the TC should be familiar with this document, which may create obligations regarding the disclosure and availability of a member's patent, copyright, trademark and license rights that read on an approved OASIS specification.

OASIS invites any persons who know of any such claims to disclose these if they may be essential to the implementation of the above specification, so that notice of them may be posted to the notice page for this TC's work.
