18 May 2011

Web Services Security X.509 Certificate Token Profile Version 1.1.1
Committee Specification Draft 02 / Public Review Draft 01
18 May 2011

Specification Overview:

This document set integrates specific error corrections or editorial changes to the preceding specifications, within the scope of the Web Services Security and this TC.

These documents introduce a third digit in the numbering convention where the third digit represents a consolidation of error corrections, bug fixes or editorial formatting changes (e.g., 1.1.1); it does not add any new features to the base specifications (e.g., 1.1).

TC Description:

The purpose of this TC is to perform ongoing maintenance on the OASIS Standards of Web Services Security 1.1 and token profiles produced by the Web Services Security (WSS) TC, which is now closed.

The work is defined as: any drafting or development work to modify the indicated OASIS Standards that (a) constitutes only error corrections, bug fixes or editorial formatting changes; and (b) does not add any new features, and (c) is within the scope of the Web Services Security TC that approved the OASIS Standard.

Public Review Period:

The public review starts tomorrow, 13 August 2011 and ends 11 September 2011.

This is an open invitation to comment. OASIS solicits feedback from potential users, developers and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.
