Distribution ZIP files

For your convenience, OASIS provides a complete package of each prose specification and related files in a ZIP distribution file. You can download the ZIP files here:

Members of the OASIS Open Data Protocol (OData) TC [1] approved these specifications by Full Majority Vote. The specifications had been released for public review as required by the TC Process [2]. The vote to approve as a Committee Specification passed [3], and the Approved Errata are now available online in the OASIS Library as referenced above.

Our congratulations to the TC on achieving this milestone.
