Call for Consent for 3 OData specifications as OASIS Standards

Submitted by censign on Mon, 2020-04-27 17:28
Type:
OS Ballot

The OASIS Open Data Protocol (OData) TC members [1] have approved submitting the following Candidate OASIS Standards to the OASIS Membership in a call for consent for OASIS Standards:

OData JSON Format Version 4.01
Candidate OASIS Standard 02
19 April 2020

OData Common Schema Definition Language (CSDL) JSON Representation Version 4.01
Candidate OASIS Standard 02
19 April 2020

OData Common Schema Definition Language (CSDL) XML Representation Version 4.01
Candidate OASIS Standard 02
19 April 2020

This is a call to the primary or alternate representatives of OASIS Organizational Members to consent or object to this approval. You are welcome to register your consent explicitly on the ballot; however, your consent is assumed unless you register an objection. To register an objection, you must:

1. Indicate your objection on this ballot, and

2. Provide a reason for your objection and/or a proposed remedy to the TC.

You may provide the reason in the comment box or by email to the Technical Committee on its comment mailing list or, if you are a member of the TC, to the TC's mailing list [2]. If you provide your reason by email, please indicate in the subject line that this is in regard to the Call for Consent.

This Committee Specification was approved by the Technical Committee and was submitted for the required 60-day public review [3]. All requirements of the OASIS TC Process having been met [4][5], the Candidate OASIS Standard is now submitted to the voting representatives of OASIS Organizational Members.

-- Details --

The Call for Consent opens on 28 April 2020 at 00:00 UTC and closes on 11 May 2020 at 23:59 UTC. You can
access the ballot at:

OASIS members should ensure that their organization's voting representative responds according to the organization's wishes. If you do not know the name of your organization's voting representative is, go to the My Account page at

http://www.oasis-open.org/members/user_tools [3]

then click the link for your Company (at the top of the page) and review the list of users for the name designated as "Primary".

-- Information about the Candidate OASIS Standards and the OData TC --

The Open Data Protocol (OData) enables the creation of REST-based data services, which allow resources, identified using Uniform Resource Locators (URLs) and defined in an Entity Data Model (EDM), to be published and edited by Web clients using simple HTTP messages.

OData Version 4.01, containing the core semantics and facilities of the protocol was approved as an OASIS Standard on 23 April 2020.

OData JSON Format Version 4.01 extends the core specification by defining representations for OData requests and responses using a JSON format.

OData Common Schema Definition Language (CSDL) XML Representation Version 4.01 defines specific representations of the entity data model exposed by an OData service using XML.

OData Common Schema Definition Language (CSDL) JSON Representation Version 4.01 defines specific representations of the entity data model exposed by an OData service using JSON.
