Call for Consent for #OData Version 4.01 as an OASIS Standard

Submitted by cesign on Thu, 2020-04-09 21:03

Type:

OS Ballot

The OASIS Open Data Protocol (OData) TC members [1] have approved submitting the following Candidate OASIS Standard to the OASIS Membership in a call for consent for OASIS Standard:

OData Version 4.01
Candidate OASIS Standard 01
28 January 2020

This is a call to the primary or alternate representatives of OASIS Organizational Members to consent or object to this approval [2]. You are welcome to register your consent explicitly on the ballot; however, your consent is assumed unless you register an objection [3]. To register an objection, you must:

1. Indicate your objection on this ballot, and
2. Provide a reason for your objection and/or a proposed remedy to the TC.

You may provide the reason in the comment box or by email to the Technical Committee on its comment mailing list or, if you are a member of the TC, to the TC's mailing list [3]. If you provide your reason by email, please indicate in the subject line that this is in regard to the Call for Consent.

This Committee Specification was approved by the Technical Committee and was submitted for the required 60-day public review [4]. All requirements of the OASIS TC Process having been met [5][6], the Candidate OASIS Standard is now submitted to the voting representatives of OASIS Organizational Members.

-- Details --

The Call for Consent opens at 10 April 2020 00:00 UTC and closes on 23 April 2020 23:59 pm timezone. You can access the ballot at:

Internal link for voting members: <https://www.oasis-open.org/apps/org/workgroup/voting/ballot.php?id=3493> [1]

Publicly visible link: <https://www.oasis-open.org/committees/ballot.php?id=3493> [2]

OASIS members should ensure that their organization's voting representative responds according to the

organization's wishes. If you do not know the name of your organization's voting representative is, go to the My Account page at

http://www.oasis-open.org/members/user_tools [3]

then click the link for your Company (at the top of the page) and review the list of users for the name designated as "Primary".

-- Information about the Candidate OASIS Standard --

The Open Data Protocol (OData) enables the creation of REST-based data services, which allow resources, identified using Uniform Resource Locators (URLs) and defined in an Entity Data Model (EDM), to be published and edited by Web clients using simple HTTP messages. The TC has received 3 Statements of Use from IBM, Microsoft, and SAP [2].
