
Call for Consent for #TOSCA Simple Profile in YAML V1.2 as an OASIS Standard

Submitted by censign on Thu, 2019-01-03 16:43

Type:

OS Ballot

The OASIS Topology and Orchestration Specification for Cloud Applications (TOSCA) TC members [1] have approved submitting the following Candidate OASIS Standard to the OASIS Membership in a call for consent for OASIS Standard:

TOSCA Simple Profile in YAML Version 1.2
Candidate OASIS Standard 01
10 October 2018

This is a call to the primary or alternate representatives of OASIS Organizational Members to consent or object to this approval. You are welcome to register your consent explicitly on the ballot; however, your consent is assumed unless you register an objection. To register an objection, you must:

1. Indicate your objection on this ballot, and
2. Provide a reason for your objection and/or a proposed remedy to the TC.

You may provide the reason in the comment box or by email to the Technical Committee on its comment mailing list or, if you are a member of the TC, to the TC's mailing list [2]. If you provide your reason by email, please indicate in the subject line that this is in regard to the Call for Consent.

This Committee Specification was approved by the Technical Committee and was submitted for the required 60-day public review [3]. All requirements of the OASIS TC Process having been met [4][5], the Candidate OASIS Standard is now submitted to the voting representatives of OASIS Organizational Members.

-- Details --

The Call for Consent opens at 04 January 2019 at 00:00 UTC and closes on 17 January 2019 at 23:59 UTC. You can access the ballot at:
