This Call for Consent is taking place under the revised TC Process rules effective 01 July 2017 [2]. 1. Indicate your objection on this ballot, and
2. Provide a reason for your objection and/or a proposed remedy to the TC.

You may provide the reason in the comment box or by email to the Technical Committee on its comment mailing list or, if you are a member of the TC, to the TC's mailing list [3]. If you provide your reason by email, please indicate in the subject line that this is in regard to the Call for Consent.

This Committee Specification was approved by the Technical Committee and was submitted for the required 60-day public review [4]. All requirements of the OASIS TC Process having been met [5][6], the Candidate OASIS Standard is now submitted to the voting representatives of OASIS Organizational Members.

-- Information about the Candidate OASIS Standard and the UBL TC --

The Universal Business Language (UBL) is an open library of standard electronic XML business documents for procurement and transportation such as purchase orders, invoices, transport logistics and waybills. It is designed to operate within a standard business framework such as ISO/IEC 15000 (ebXML) to provide a complete, standards-based infrastructure that can extend the benefits of existing EDI systems to businesses of all sizes.

Version 2.2 is completely backward-compatible with UBL 2.0. UBL is freely available to everyone without legal encumbrance or licensing fees.
