TC Administration announcements

OASIS is pleased to announce the publication of Akoma Ntoso Version 1.0 Committee Specification 01 and Akoma Ntoso Naming Convention Version 1.0 Committee Specification 01 by the members of the OASIS LegalDocumentML (LegalDocML) TC:

Akoma Ntoso Version 1.0
Committee Specification 01
06 June 2017

Akoma Ntoso (two linked hearts in the Akan language of West Africa) provides a framework for the effective exchange of machine readable parliamentary, legislative and judiciary documents such as legislation, debate records, minutes, judgements, etc. In doing so, it helps build a strong foundation for "open access" to government information.

Part 1: XML Vocabulary presents the main motivations, design principles, and benefits of the Akoma Ntoso vocabulary and approach. The document is non-normative material that presents the main pillars of Akoma Ntoso to the stakeholders that need to take decisions about how to manage legal sources in a digital manner in a Semantic Web society.

Part 2: Specifications documents the Akoma Ntoso XSD and DTD standard, including the graphic representation using Oxygen library.

Akoma Ntoso Naming Convention Version 1.0
Committee Specification 01
06 June 2017

Akoma Ntoso Naming Convention Version 1.0 provides the naming convention for defining IRIs and ids related to the Akoma Ntoso XML standard.

These are OASIS deliverables, completed and approved by the TC and fully ready for testing and implementation.

The prose specifications and related files are available here:
