
Invitation to comment on Cross-Enterprise Security and Privacy Authorization (XSPA) Profile of SAML v2.0 for Healthcare V2.0 from the XSPA TC - ends April 1st

Submitted by cesign on Fri, 2019-03-15 18:34

Type:

Public Review

We are pleased to announce that Cross-Enterprise Security and Privacy Authorization (XSPA) Profile of SAML v2.0 for Healthcare Version 2.0 from the OASIS Cross-Enterprise Security and Privacy Authorization (XSPA) TC [1] is now available for public review and comment. This is the fourth public review for the work.

The XSPA profile defines a set of SAML attributes and corresponding vocabularies for healthcare information exchange applications.

The core use-cases are the cross-enterprise exchange of protected data objects from a Service Provider (SP) to a Service Consumer (SC). In the scenarios, the request includes SAML attribute assertions that vouch for the identity of the requesting Principal and other attributes that are consequential in making the access control decision at the SP's side.

In addition to the main use-cases, the attributes' name and values can be used in some other scenarios, such as including SAML Assertions to vouch for some of SP's organizational attributes, or carrying the identity attributes of the signer of a data object.

The documents and related files are available here:

How to Provide Feedback

OASIS and the XSPA TC value your feedback. We solicit feedback from potential users, developers, and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.

This public review starts on 18 March 2019 at 00:00 UTC and ends 01 April 2019 at 11:59 UTC.

This specification was previously submitted for public review [2]. This 15-day review is limited in scope to changes made from the previous review. Changes are highlighted in the red-lined file included in the package [3].

Comments on the work may be submitted to the TC by following the instructions located at:

http://www.oasis-open.org/committees/comments/form.php?wg_abbrev=xspa [5]

Feedback submitted by TC non-members for this work and for other work of this TC is publicly archived and can be viewed at:

<http://lists.oasis-open.org/archives/xspa-comment/> [6]

All comments submitted to OASIS are subject to the OASIS Feedback License, which ensures that the feedback you provide carries the same obligations at least as the obligations of the TC members. In connection with the public review of these works, we call your attention to the OASIS IPR Policy [4] applicable especially [5] to the work of this technical committee. All members of the TC should be familiar with this document, which may create obligations regarding the disclosure and availability of a member's patent, copyright, trademark and license rights that read on an approved OASIS specification.

OASIS invites any persons who know of any such claims to disclose these if they may be essential to the implementation of the above specification, so that notice of them may be posted to the notice page for this TC's work.

Additional information about this specification and the TC may be found on the TC's public home page.
