# Invitation to comment on #SAML V2.0 Subject Identifier Attributes Profile V1.0 - ends Dec. 12th

Submitted by censign on Mon, 2017-11-13 17:05

**Type:**

Public Review

OASIS and the OASIS Security Services (SAML) TC are pleased to announce that SAML V2.0 Subject Identifier Attributes Profile Version 1.0 is now available for public review and comment.

The specification standardizes two new SAML Attributes to identify security subjects, as a replacement for long-standing inconsistent practice with the <saml:NameID> and <saml:Attribute> constructs. It also addresses recognized deficiencies with the SAML persistent NameID format.

The documents and related files are available here:

SAML V2.0 Subject Identifier Attributes Profile Version 1.0  
Committee Specification Draft 01 / Public Review Draft 01  
24 October 2017

Editable source (Authoritative):

## How to Provide Feedback

OASIS and the SAML TC value your feedback. We solicit input from developers, users and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.

The public review starts 14 November 2017 at 00:00 UTC and ends 12 December 2017 at 23:59 UTC.

Comments may be submitted to the TC by any person through the use of the OASIS TC Comment Facility

which can be used by following the instructions on the TC's "Send A Comment" page ([https://www.oasis-open.org/committees/comments/index.php?wg\\_abbrev=security](https://www.oasis-open.org/committees/comments/index.php?wg_abbrev=security) [5]).

Comments submitted by TC non-members for this work and for other work of this TC are publicly archived and can be viewed at:

<https://lists.oasis-open.org/archives/security-services-comment/> [6]

All comments submitted to OASIS are subject to the OASIS Feedback License, which ensures that the feedback you provide carries the same obligations at least as the obligations of the TC members. In connection with this public review, we call your attention to the OASIS IPR Policy [1] applicable especially [2] to the work of this technical committee. All members of the TC should be familiar with this document, which may create obligations regarding the disclosure and availability of a member's patent, copyright, trademark and license rights that read on an approved OASIS specification.

OASIS invites any persons who know of any such claims to disclose these if they may be essential to the implementation of the above specification, so that notice of them may be posted to the notice page for this TC's work.

Additional information about the specification and the SAML TC can be found at the TC's public home page:
