Type:

Public Review

OASIS and the OASIS eXtensible Access Control Markup Language (XACML) TC are pleased to announce that XACML REST Profile Version 1.1 and JSON Profile of XACML 3.0 Version 1.1 are now available for public review and comment.

The REST Profile specification defines a profile for the use of XACML in a RESTful architecture.

The JSON profile proposes a standardized interface between a policy enforcement point and a policy decision point using JSON, leveraging the decision request and response structure specified in the core XACML standard.

The documents and related files are available here:

How to Provide Feedback

OASIS and the OASIS eXtensible Access Control Markup Language (XACML) TC value your feedback. We solicit input from developers, users and others, whether OASIS members or not, for the sake of improving the interoperability and quality of its technical work.

The public reviews start September 21 at 00:00 UTC and ends October 20 at 23:59 UTC.

Comments may be submitted to the TC by any person through the use of the OASIS TC Comment Facility which can be used by following the instructions on the TC's "Send A Comment" page (https://www.oasis-open.org/committees/comments/index.php?wg_abbrev=xacml [9]).

Comments submitted by TC non-members for these works and for other work of this TC are publicly archived and can be viewed at:

<https://lists.oasis-open.org/archives/xacml-comment/> [10]

All comments submitted to OASIS are subject to the OASIS Feedback License, which ensures that the feedback you provide carries the same obligations at least as the obligations of the TC members. In connection with this public review, we call your attention to the OASIS IPR Policy [1] applicable especially [2] to the work of this Technical Committee. All members of the TC should be familiar with this document, which may create obligations regarding the disclosure and availability of a member's patent, copyright, trademark and license rights that read on an approved OASIS specification.

OASIS invites any persons who know of any such claims to disclose these if they may be essential to the implementation of the above specification, so that notice of them may be posted to the notice page for this TC's work.

Additional information about the specification and the XACML TC can be found at the TC's public home page:
