

#KMIP Specification v2.0 and KMIP Profiles v2.0 approved as OASIS Standards

Submitted by censign on Fri, 2019-11-01 14:05

Type:

OS Approval

OASIS is pleased to announce that Key Management Interoperability Protocol Specification Version 2.0 and Key Management Interoperability Protocol Profiles Version 2.0 have been approved by the membership as OASIS Standards [1].

The ballot was held under the OASIS call for consent procedure [2]. In the ballot, both Candidate OASIS Standards received 15 affirmative consents and no objections. Therefore the standards are approved.

TC Administration will now prepare and publish the final OASIS Standards and notify members when they are available.

Our congratulations to the members of the TC and to the community of implementers, developers, and users who have brought the work successfully to this milestone
