The members of the OASIS Energy Interoperation TC [1] have requested that OASIS submit the following OASIS Standard:

OASIS Energy Interoperation version 1.0  
OASIS Standard  
11 June 2014

to Project Committee 118 [2] of the International Electrotechnical Commission (IEC) for approval as a proposed International Standard.

The OASIS Liaison Policy [3] requires that management approve or reject the Request as meeting the policy's requirements; if it is accepted, the policy requires that the Request be posted for member review for 30 days, for comment on the proposed terms, before transmitting it to IEC.

The specification was approved as an OASIS Standard, and is available here:

The request of the TC meets each of the applicable criteria of the Liaison Policy, and is appended here:

This is an open invitation to OASIS members to comment on the proposed terms of submission, described in the

Request. Comments may be submitted by any OASIS member to the TC by directing them to the [oasis-member-discuss@lists.oasis-open.org](mailto:oasis-member-discuss@lists.oasis-open.org) [4] mailing list.
