TC Administration announcements

We are pleased to announce the approval and publication of a new Committee Specification (CS) by the members of the OASIS Open Data Protocol (OData) TC:

OData JSON Format Version 4.0  
Committee Specification 01  
14 August 2013

**Overview:**

The Open Data Protocol (OData) for representing and interacting with structured content is comprised of a set of specifications. The core specification for the protocol is in OData Version 4.0 Part 1: Protocol; this document extends the former by defining representations for OData requests and responses using a JSON format.

**URIs:**

The prose specification and related files are available here:

Members of the Open Data Protocol (OData) Technical Committee [1] requested a Special Majority Vote to approve this specification as a Committee Specification. The specification had been released for public review

as required by the TC Process [2]. The vote to approve as a Committee Specification passed [3], and the approved CS01 is now available online in the OASIS Library as referenced above.

Our congratulations to the TC on achieving this milestone.
