TC Administration announcements

We are pleased to announce the approval and publication of an OASIS Committee Specification (CS) by the members of the Security Services (SAML) TC [1]:

SAML V2.0 Metadata Extensions for Registration and Publication Information Version 1.0
Committee Specification 01
03 April 2012

Overview:

The Metadata Extensions for Registration and Publication Information define a set of extensions to SAML metadata that provide information about the creation and intended usage of the metadata document and information about who and how particular entities were registered.

Members of the Security Services (SAML) TC requested a Special Majority Vote to approve this specification as a Committee Specification. The specification had been released for public review as required by the TC Process [2]. The vote to approve at Committee Specification (CS) level passed [3], and the approved CS01 is now available online in the OASIS Library as referenced above.

Our congratulations to the TC on achieving this milestone.
