

# Symptoms Automation Framework (SAF) V1.0 becomes an OASIS Standard

Submitted by censign on Wed, 2014-01-22 19:14

**Type:**

Result of Voting

We are pleased to announce that Symptoms Automation Framework (SAF) V1.0 has been approved by the membership as an OASIS Standard [1].

The call to vote was announced on 07 January 2014 [2] and closed 21 January 2014. A minimum of 46 affirmative votes were needed in order to win approval. The final vote tally was 47 with no negative votes.

TC Administration will now prepare and publish the final OASIS Standard and notify members when it is available.

Our congratulations to the members of the TC and to the community of implementers, developers and users who have brought the work successfully to this milestone
