The OASIS Universal Business Language TC [1] members have recently approved a Committee Specification Draft (CSD) and submitted it for 45-day public review:

Universal Business Language Version 2.2  
Committee Specification Draft 01 / Public Review Draft 01  
21 December 2016

**Overview:**

This specification defines the Universal Business Language (UBL) version 2.2, an open library of standard electronic XML business documents for procurement and transportation such as purchase orders, invoices, transport logistics and waybills.

UBL 2.2 is that it is completely backward-compatible with UBL 2.0. UBL 2.2 is technically a minor release however it does add 16 new document types for eTendering, for transportation, and for business directories and agreements. This brings the total number of UBL business documents to 81.

**Public Review Period:**

The public review starts 01 February 2017 at 00:00 UTC and ends 17 March 2017 at 23:59 UTC.
