**Type:**

TC Administration announcements

OASIS is pleased to announce the approval and publication of a new Committee Specification by the members of the OASIS eXtensible Access Control Markup Language (XACML) TC:

XACML v3.0 Hierarchical Resource Profile Version 1.0  
Committee Specification 02  
18 May 2014

**Overview:**

This Committee Specification provides a profile for the use of XACML with resources that are structured as hierarchies. The profile addresses resources represented as nodes in XML documents or represented in some non-XML way. The profile covers identifying nodes in a hierarchy, requesting access to nodes in a hierarchy, and specifying policies that apply to nodes in a hierarchy.

**URIs:**

The prose specification and related files are available here:

Editable source (Authoritative):

**Distribution ZIP files**

For your convenience, OASIS provides a complete package of each prose specification and related files in a ZIP distribution file. You can download the ZIP files here:

<http://docs.oasis-open.org/xacml/3.0/hierarchical/v1.0/cs02/xacml-3.0-hi...> [4]

Members of the OASIS eXtensible Access Control Markup Language (XACML) TC [1] requested a Special

Majority Vote to approve this specification as a Committee Specification. The specification had been released for public review as required by the TC Process [2]. The vote to approve as a Committee Specification passed [3], and the approved CS02 is now available online in the OASIS Library as referenced above.

Our congratulations to the TC on achieving this milestone.
