
Technical Advisory Board

The OASIS Technical Advisory Board (TAB) advises the OASIS Board of Directors, staff, and membership on matters related to the technical agenda of OASIS. The TAB focuses on improving the standards development process, improving the quality of OASIS Standards through the production of guidelines and educational materials, and advising on improvements to community and collaboration processes and technologies.

TAB members are nominated in an open election process by the Sponsors and Contributors of the Consortium. Each TAB member serves a two-year term.
